## **DETERMINED TO DRIVE BEEF TRUST TO WALL**

Afterney General Knox Receiving Detailed Reports From District Attorneys All Over Country.

#### COLLECTING MASS OF EVIDENCE

May Be Used for Prosecutions Under Sherman Anti-Trust Law Should That Course Become Necessary.

REPUBLIC SPECIAL. Washington, May 17.- From the Rocky Mountain divide to the Atlantic Coast and from the Canadian border to the Guir of Mexico United States District Attorneys are engaged in collecting evidence against the Beef Trust. The news that is coming in from Boston, Topeka and other scat tered points of netivity on the part of th Federal District Attorneys constitutes only

a part of the story. They are all after the Beef Trust and have been after it ever since hist Saturday, when simultaneously with the filling of the bill of complaint ngainst the Swift-Armour occopies, Attorney General Knox issued a general order addressed to the District Attorneys of the The general order has not been made

The general order has not been made public, but it was histed at in a statement made at the Department of Justice on that day to this effect:
"Owing to the numerous communications from all over the cauntry volunteering evidence of the illegal practices of the trust, and because of the limited force of the department in Washington and in Chicago, the Digital Arrange infraughout the country have been directed to examine into the testimony offered and to forward it to the department."

department."

But the order that the Attorney General sent out meant more than this, it is understood. It asked that the District Attorneys begin an investigation but all violations of the law in their Bealities by the Beef Trust and its local connections. This step is for the double purpose of getting additional evidence against the trust for use should it become necessary in the proceedings at Chicago when the Government's application comes up and of preparing for indictments and prosecutions under the penal clause of the Sherman anti-trust law should it be decided by the administration that such extreme steps shall be taken. For nearly a week the United States Attorneys for at least twenty district have been at work carrying out the orders from Washington, and no trust in the country ever had such an overhanding its the Beef Trust is having now. Reports are coming to the department in great numbers and volume. Purpose of the Order.

Administration Is in Enruest. Administration is in Earnest.

Attorney General Knox has been giving these reports his personal attention, and he has been in almost continuous consultation with Solicitor General Richards and former Judge W. A. Day, the special Assistant Attorney General, who has from the outset of the proceedings beam depended on by the Attorney General for the hardest work in collecting evidence.

Whotever action is being taken by the various District Attorneys in the Grand Jury rooms is in obedience to instructions direct from the Department of Justice. The wires are busy all day long.

The administration is very much in carnest in these prosecutions and is determined that the Beef Trust shall go out of business or to the wall.

or to the wall.

Solicitor General Richards and former Judge Day will leave Washington for Chicago on Sunday to participate in the a gaments on the bill of complaint asking for an injunction, which has been fixed for May 29.

#### TWELVE HUNDRED ENTRIES TO TUILERIES DOG SHOW.

MPECIAL BY CABLE TO THE NEW YORK HERALD AND THE ST. LOUIS REPUBLIC. Paris, May 17. (Copyright, 1902.)-Over twelve hundred entries have been received for the dog show in the Tulleries Gardens,

for the dog show in the Tuileries Gardens, which promises to beat all previous records. All classes will be well represented, and, as usual, the drafts on hunting packs will be one of the principal features. Thirteen lots are catalogued, including a splendid selection of the Duchess of Uze's hounds. The classes, which will probably attract most attention, and in which there are a goodly number of exhibits, are colles, buildogs, setters and spaniels.

No British dogs are shown on account of the long quarantine exacted on their return to England. The quarantine is justified, for rables, now extinct in England, is on the increase in France, over 2,000 cases for the year being reported.

Scientists of the Faculty of Medicine have taken up the matter for their serious investigation, and precautions similar to those obtaining in England, will be adopted here.

King Oscar has presented President Loubet a copy of his poems, which were published in Paris recently. The following is the autograph dedication:

"A Monsteur Emile Loubet, President de la Republique Francaise. Hommage Affectusix. D'Oscar." After the dedication the King has written the first two stanzas of his poem on Provence.
